

ENVIRONMENTAL MANAGEMENT POLICY

Purpose

This Policy ensures that all company activities are performed in a manner that minimises environmental impact in accordance with ISO14001:2015.

Principles

OMSB accepts its responsibility for environmental protection and contributes to sustainability by seeking innovative solutions to environmental aspects of business operations.

This Policy demonstrates OMSB's value of "Sustainability" and informs the Sustainability suite of the Integrated Management System, including:

- Biosecurity
- Waste Management
- Prescribed Premise
- Environmental Monitoring

OMSB will comply with all applicable laws, regulations and standards relating to environmental protection.

OMSB is committed to:

- providing and maintaining facilities, equipment and systems of work that prevent pollution, minimise waste, preserve waterways, assure biosecurity and rehabilitate affected areas
- identifying environmental hazards and reducing risks as low as reasonably practicable
- pursuing new technology and innovations which combine commercial viability with efficient use and conservation of resources
- defining management commitment and accountability for sustainability objectives
- Communicating this policy to employees, contractors and stakeholders
- empowering and motivating workers to meet personal responsibilities to environmental protection
- training workers on environmental aspects relevant to their workplace
- monitoring compliance of operations with statutory environmental requirements
- reviewing performance against established, measurable environmental targets and pursuing continual improvement
- maintaining carbon neutral port certification through federal climate active initiative; and
- meaningful engagement with stakeholders in a more sustainable resources sector and preserved local ecosystem.

Preserving the health and sustainability of the environment in which we operate is fundamental to OMSB's vision to be the port service provider of choice for complex marine logistics projects.
